To attend an activity please contact us on 01843 282400
KCHT, Breakthrough Community Impact, 9 Cecil Square, Margate, Kent, CT9 1BD

Breakthrough Community Impact is a Thanet based project for children and young people aged between 8 & 19 years and their families.

We are here to support those who are having difficulty engaging fully in their different communities.

Communities can refer to an individual's home life, school experience, friendship groups, work, membership of clubs and services.

By supporting individuals and families to engage fully in their communities our aim is to enhance community spirit within Thanet using creativity and fun!

We offer a programme of community based activities and workshops. as well as individual, group and family support.

A programme to be designed, developed and ultimately run by you!

Children, young people and their families can contact **Breakthrough Community Impact** for advice and support.

All information shared is confidential in accordance with KCHT's confidentiality policy.
